

Outreach Partnership Criteria (Winning Conditions List)

Sport Central has learned from experience there must be certain resources and agreements in place creating a “Winning Combination” by which a partnering community can succeed with a sustainable sport program in their region.

Each Sport Central outreach must provide and agree to:

1. Provide strong local leadership.
2. Provide an accessible and secure space for equipment storage.
3. Generate volunteer or paid staff to qualify and outfit children in need.
4. Share sport equipment with children in the wider region when need is determined.
5. Generate funds through a variety of means to purchase necessary equipment and/or other costs to support their initiative.
6. Maintain, and or grow the program so no child in need is left behind.
7. Implement a program with documentation and accountability of users and have a willingness to share this information with Sport Central.
8. Work with other agencies such as police, social services, schools and others who can help identify children in need and support this program.
9. Develop a communications strategy, using local or social media, for awareness in addition to attracting volunteers and donations of money/sport equipment to your program.
